IMPORTANT INSTRUCTIONS

⚠️ When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. Read all instructions before installing or using this thermostat.
2. Use this thermostat only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock, or injury to persons.
3. Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater or thermostat.
4. To disconnect thermostat turn off power to heater circuit at main disconnect panel.
5. Do not operate any thermostat after it malfunctions. Disconnect power at main disconnect panel and have thermostat inspected by a qualified electrician before reusing.
6. A thermostat has arcing or sparking parts inside. Do not use in areas where gasoline, paint, or flammable liquids are stored.

rounded corners to front of heater
wired on right
INSTALLATION INSTRUCTIONS

1. All electrical work and materials must comply with the National Electric Code (NEC), the Occupational Safety and Health Act (OSHA), and all state and local codes.

2. Use copper conductors only.

3. Use only on SoftHEAT baseboard heaters.

4. Turn off power to heater at main disconnect panel.

5. Connect grounding lead to grounding screw provided on the heater.

6. Use wire connectors (not included) for all connections.

1. Remove the SoftHEAT baseboard end cap by removing the screw and clip located on the back of the heater and sliding the end cap off. Keep the screw and clip to use with the thermostat.

2. Slide the thermostat end cap onto the heater. Make sure no wires are caught between the thermostat and heater. Fasten to the baseboard using the screw and clip set aside.

3. Make wire connections below, depending on your heater model, and whether you have a right end or left end wiring compartment. For 240 or 208 volt, both supply wires (black and white) are hot.

**DOUBLE POLE (4-WIRE) - 240/208 or 208 VOLT**

A. Connect the two black thermostat wires to the two loose heater wires.

B. Connect the two hot supply wires to the two red thermostat wires.

Wrap supply (white) wire with black tape to identify it as hot.

**DOUBLE POLE (4-WIRE) - 120 VOLT**

A. Connect the two black wires from the thermostat together.

B. Connect the neutral (white) supply wire to the white heater wire.

C. Connect the black wire from the baseboard to one of the red thermostat wires.

D. Connect the remaining red thermostat wire to the remaining supply wire.

**DOUBLE POLE (4-WIRE) - 120 VOLT**

4. Tuck all the wires back into the wiring compartment, and make sure the connections are tight.

5. Screw the wiring compartment cover back on.

6. Return to your SoftHEAT baseboard Owner’s Guide and go to **Mount heater to wall** to complete installation.
Make sure all wires are properly connected and installation is complete before you turn on the heater.

How to operate your heater
The room temperature is controlled by the thermostat on the heater. Once installation is complete and power has been restored, follow the steps below for your thermostat:

1. Turn the thermostat knob all the way to the right.
2. When the room reaches your comfort level, turn the knob to the left, just until it clicks and the heater turns off. The heater will automatically keep the room temperature around this setting.
3. To reduce the room temperature, turn the knob to the left. To increase the room temperature, turn the knob to the right.

WARRANTY

For more effective and safer operation and to prolong the life of the heater, read the Owner’s Guide and follow the instructions. Failure to properly maintain the heater will void any warranty and may cause the heater to function improperly.

**LIMITED ONE YEAR WARRANTY:** Cadet will repair or replace any Cadet EBKN thermostat found to be defective within one year after the date of purchase.

**These warranties do not apply:**
1. Damage occurs to the product through improper installation or incorrect supply voltage;
2. Damage occurs to the product through improper maintenance, misuse, abuse, accident, or alteration;
3. The use of unauthorized accessories or unauthorized components constitutes an alteration and voids all warranties. Refer to Cadet website or call customer service at 855.223.3887 or 360.693.2505 for list of authorized accessories and components.

4. CADET’S WARRANTY IS LIMITED TO REPAIR OR REPLACEMENT.
5. IN THE EVENT CADET ELECTS TO REPLACE ANY PART OF YOUR CADET PRODUCT, THE REPLACEMENT PARTS ARE SUBJECT TO THE SAME WARRANTIES AS THE PRODUCT. THE INSTALLATION OF REPLACEMENT PARTS DOES NOT MODIFY OR EXTEND THE UNDERLYING WARRANTIES. REPLACEMENT OR REPAIR OF ANY CADET PRODUCT OR PART DOES NOT CREATE ANY NEW WARRANTIES.

If you believe your Cadet product is defective, please contact Cadet during the warranty period, for instructions on how to have the repair or replacement processed.
